Colors
Black Beauty

This jacket is made of 100% polyester and features a brushed interior and knitted surface, providing both comfort and freedom of movement. It has a soft collar and a long zipper with a protective flap to shield the chin.

The jacket includes elastic ribbed cuffs at the wrists and hem, as well as two practical zippered side pockets. The jacket is equipped with 5 cm wide reflective bands around the waist, on the sleeves, and shoulders.

A functional jacket perfect as a mid-layer on cold days or as an outer jacket when it's warmer.

Technical description: Shell 1: 100% Polyester, Shell 2: 94% Polyester, 6% Elastane.

Wash the garment inside out in the machine at 40 degrees. Do not iron, tumble dry, bleach or dry clean. The effect of the reflective stripes gets reduced after multiple washes. Avoid using fabric softener.
